CALCULATE

To solve Calculate, all you need to know is simple arithmetic. Move from clue to clue as sometimes you may not be able to enter an entire number but other clues and some logic will help. **Do the math in the order given.**

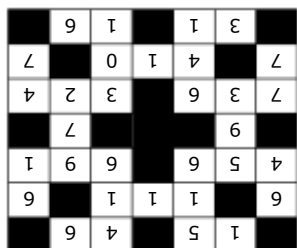

Across:

1. 4D less 6D; times 5
3. 1A times 3; plus 1
5. Same digit thrice
7. Consecutive digits
9. 6D times 11; plus 20
11. 3A times 17A
13. $\frac{1}{3}$ of 10D
15. 7A less 3A
16. 17A plus 1A
17. Last 2 digits of 2D

Down:

2. 8 cubed plus 4
3. 2D less 100
4. 17A times 4
6. 17A reversed
8. 2D plus 11D
10. 2D plus 7A
11. 6D plus 17A
12. 13A times 2; less 7
13. 3D less 5A less 4
14. 16A plus 17A
