CALCULATE

To solve Calculate, all you need to know is simple arithmetic. Move from clue to clue as sometimes you may not be able to enter an entire number but other clues and some logic will help. **Do the math in the order given.**

Across:

2. 15A times 2; less 7000
5. Half of; 14A plus 4
6. 8 squared
7. Last two digits of 12D,
less first two digits of 2A
9. 6A times 4
11. 4 cubed
13. Average of 6A and 6D
14. 11A reversed
15. 6A times 6D; times 10

Down:

1. 2A less 15A plus 9A
3. Consecutive numbers
4. 12D plus 9A ; less 11A
6. No need
8. Its digits total 13
10. No need
12. Last three digits of 2A
plus 10D plus 13A plus 3

Answer:

0		0	8	6	9	3			
9	4		7		8				
0		3	9		4	9			
0		6	5	2		3			
7	1		4	6		9			
	8		3		5	2			
0	9	3	2	7		3
