CALCULATE

To solve Calculate, all you need to know is simple arithmetic. Move from clue to clue as sometimes you may not be able to enter an entire number but other clues and some logic will help. **Do the math in the order given.**

Across:

1. 3A less 18D; less 10
3. 18D plus 8D
5. Consecutive digits
7. 3A times 2; less 1
9. 21A times 4; plus 1
12. 10D times 10; plus 6
14. 19D times 5
17. 5A times 2
20. 19D times 6; plus 4
21. 9 squared

Down:

1. Same digit twice
2. 8D reversed
3. 500 times 3; plus 2
4. Total digits of 17A
5. Half of 12A
6. No need
8. 6 times 7; less 8
10. 1D plus 2
11. 20A plus 2; times 10
13. 4D times 30
15. No need
16. 1D plus 2D
18. No need
19. 21A plus 10

Answer:

	1	8		0	5	5
0	6	9	4	2		9
3			5	5	4	
9	4	2		5	2	3
	3	0	2			2
1		5	4	3	2	1
2	0	1		4	2
